

Correct SAC Installation

Ref: TN110 Issue date: January 2020

Issue number: 1

This replacement clutch kit includes a SAC (Self Adjusting Clutch Cover Assembly).

To ensure that the SAC is evenly torqued to the flywheel avoiding potential damage to the SAC adjustment mechanism, EXEDY recommends the use of tool kit EXEDY Part No. SAC TOOL BOX to be used during this kit's installation. To obtain an SAC TOOL BOX please contact your EXEDY clutch distributor.

Please scan the below QR code or link to EXEDY Tech Note 071 for further instruction on how to use the EXEDY SAC TOOL BOX.
