

## Clutch Plate Fitment 2.3ltr Petrol Ford Transit

Ref: TN064

Issue date: August 2013

Issue number: 1

It is essential that the clutch plate in this application is fitted with the side plate facing the flywheel. Failure to do this will potentially damage the clutch kit and result in gear selection problems.

Please refer to the pictures below for further information on how to identify both gearbox & flywheel sides of the clutch plate.
