

Jeep Locating Dowel Pin Removal

Ref: TN106

Issue date: Aug 2019

Issue number: 1

Important Information

LUK design clutch covers for this application are centralised using the clutch cover to flywheel 'dowel/shoulder' bolts supplied with this kit. These clutch covers will not fit over existing flywheel locating dowel pins and removal of these dowel pins is required prior to installation.

Failure to check and remove the flywheel locating dowels may result in damage to the clutch cover and product warranty will not apply.
