

Tech Note AG6

325mm Clutch Disc Options

Ref: TNAG6

Issue Date: April 2017

Issue Number: 1

There were a number of clutch plate options available for this vehicle.
The options available were:

KBD011	KBD014	KBD8378
325 x 40 x 14T	325 x 40 x 14T	325 x 40 x 14T
Sprung 5 Button	Sprung Combination	Sprung Organic

KBD011 and KBD8378 are no longer available – Use KBD014 instead.

When using KBD014 with NDC524HD cover assembly, 4 spacer shims must be installed between the cover assembly and flywheel.

If required, spacer shims are available by ordering part no. AGP1060 x 4.

Compressed thickness of KBD014 should be 10.5mm (+/- 0.3mm).

Compressed thickness of KBD011/KBD8378 should be 9.25mm (+/- 0.3mm).

If in doubt, contact your local EXEDY office.
